Insperity Capital Growth Program

Find predictability in a world of uncertainty

The Insperity® Capital Growth Program helps companies forecast and control their labor costs, so they can focus on business growth strategies.

Your company won't lose control or be slowed down by this relationship. For speed of execution, we can walk alongside you during the M&A due-diligence process to assess your company's true labor costs and projected HR expenses. Then, once the merger or acquisition is complete, we can add value by providing additional services, such as:

- Benefits plan sponsorship and administration
- HR-related government compliance
- Employer liability management
- Payroll

PROGRAM BENEFITS FOR GROWTH-FOCUSED BUSINESSES

We can help companies forecast smarter and confidently chart a course to the next phase by:
